## Clear span (Frame) Marquees

Our range of marquees includes the practical yet stylish Clear span marquee. Without the need for any central poles, you can take full advantage of the large amount of space available inside the marquee.

- **Installation on any surface** – Our Clear span marquees can be secured to the ground with weights instead of stakes when they are erected on concrete or tarmac.
- **Flexible Installation** – the Clear span marquee doesn't need guy ropes so it can fit into small garden areas, patios, etc.
- **Stability** – the Clear Span marquee will withstand higher wind speeds and snow loadings so they are a practical option in winter.
- **Safety** – all our marquees are made from flame-retardant PVC manufactured to the latest BSI standards by a leading British manufacturer.
- **Flexible use of space** – the Clear span is a modular system which can be joined together to cover large areas or fit awkward gardens. They are easily sectioned off to make separate areas for dancing, dining etc.
- **Windows** – Georgian or Clear window walls are available.

## Traditional Baytex Marquees

Combining the best of old and new, our Traditional Baytex Marquees have a vintage feel, with straps and poles playing a part in the authentic look but with the benefits of modern technology.

- **Elegant** – the traditional marquee has the classic lines of the English garden party marquee. Ideal for traditional weddings, formal garden parties or any event where period style or a little extra elegance is called for.
- **Poles** – the supporting poles inside the marquee can be decorated with fairy lights, flowers etc.
- **Safety** – our Traditional marquees are made from flame-retardant PVC manufactured to the latest BSI standard.
- **Windows** – Clear window walls are supplied with the Traditional marquee.

## Traditional Canvas Marquees

A Traditional Canvas Marquee achieves a really authentic, elegant look. It has that lovely warm vintage atmosphere that only traditional canvas materials, wooden poles and ropes can provide. It is the perfect way to host your country-style wedding, whilst the large and classic design can also provide a great setting for a stylish summer party or even corporate event.

- **Vintage** – authentic look with traditional canvas materials, wooden poles and ropes.
- **Shape** – Create a round marquee or add in middle sections to vary length. Different height King Poles topped by banner flags capture the eye.
- **Safety** – Our canvas marquees are made in the UK and are compliant with UK/European Standards.
- **Windows** – Clear windows walls are supplied with our Canvas Marquees.

## Ancillary Items

We can offer a range of ancillary items bespoke to your requirements to really make your event shine; including.....

The starlight roof lining is inset with hundreds of twinkling stars to create the perfect party atmosphere.

## Reviews

*"Thanks so much for all you did to make the day go smoothly. The marquee was a resounding success."*

**Dogmersfield, Hampshire**

*"A note to thank you both so much for the wonderful marquees you set up for Lisa and Greg's wedding. So many commented on how perfect they were and how clever to incorporate the garden. You both could not have been more patient, accommodating and pleasant. We won't hesitate to recommend you and your team to others."*

**Wonersh, Surrey**

*"We had the most perfect of days and in no small part thanks to your wonderful marquee. All your staff were incredible, particularly Craig who went over and beyond in his care and attention."*

**Chilworth, Surrey**

*"Thank you and the team so very much for all your wonderful help and service. Everyone has been so nice – and as I type this they are working like bees taking it all down – rather sad that it will all be gone. The wet weather option was a godsend."*

**Worplesdon, Surrey**

*"Firstly, I would like to say a big thank you to the team. From the outset, Carron Marquees were outstanding and it could not have been a smoother booking. Mum was very impressed when Richard came to quote initially and this set the tone from the start. The marquee went up without any fuss and looked fantastic – I'm sure that you will agree. It fitted the space to the millimetre! Thank you again for a brilliant product and service."*
